

ARTS + PROGRAMMING

An Art Focused Visit at the Park

Design Ideas for Art-focused Recreation at Puente Hills Landfill Park

Flexible Space for Special Events

The proposed Meadows provide (2) areas for large events to occur. Combined, they provide almost 3 acres of useable space with a capacity of up to 5,000 people for up to (25) special events happening annually. Per the approved EIR special mitigation including increased safety and security personnel, parking and traffic management would be required.

- Due to the constraints of the landfill, the “band shell” or “stage” area is still being considered. What do you think about having a temporary structure?
